High Performance Polymers China News

High performance polymer (HPP) has been widely applied to both military and domestic fields for its excellent capability. The demand for HPP in China will keep increasing dramatically in the coming years. The growth rate for medical instrument, electronic polymer, automobile, are up to 14%, 15%, and 37% respectively in recent two years.

Chinese technology research & development on HPP is in a leading position all over the world. For example, the technologies of PEEK, PES in Jilin University, PPS technology in Sichuan University are all quite advanced in the world. China devoted much social and economic resource to developing HPP independently and applying it to military industry in the Cold War period. Nearly every sort of HPP has been researched in China. Even now, the patent number in HPP is the largest in plastic field.

However, the industrialization of HPP in China lags behind the world for several decades. For example, commercial PI was developed by DuPont in 1960 and China mastered the same technology then, but until now China still can't produce this product in large-scale. The reasons are lack of huge capital and rich experience for trial production, and lack of cooperation between scientific research and industrialization of the research fruit.

Investing in China has been a trend for all the famous multinational HPP companies. More than ten research centers have been established in China by these companies.

Great mystery remains as how to cooperate with China institutes to make full use of the achievement in research? How to take advantage of the academic talents? How to learn first-hand information about the strategy and policy affecting HPP industry? How to explore the market with advantages in technology and capital?

High Performance Polymers China News will reveal the mystery for you from the aspects of the latest technology, application, new legislations, the latest events, the in-depth analysis, etc. CCM's exclusive intelligence will help you to be the winner in the HPP market.

What's covered?

1. Latest technology research progress of HPP in China.
2. Latest application of HPP in China.
3. New legislation influencing HPP market in the future.
4. Government and association guidelines on HPP market.
5. New plants and production lines openings and closings.
6. Testing and trial production of Chinese enterprises, multinational companies or joint-ventures.
7. Contracts, merging, acquisitions and cooperation between multinational company and Chinese domestic company.
8. Exclusive insights into foreign or domestic investor's strategies entering China's market - how can western companies capture this dynamic market?
9. In-depth analysis of the latest trend on special HPP.
10. Exclusive interviews with large HPP producers including Chinese domestic enterprise, multinational company or joint-venture.

Reasons to subscribe

1. To understand new technology and application across China's HPP industry. Keep your company walk ahead of the competition.
2. To master the new policy, regulation, or rules that impact China's HPP industry, assisting you to evaluate the investment risk.
3. To know the new initiatives, research grants and government projects that could further advance China's HPP market.
4. To discover cooperation opportunities which Chinese companies / universities / academies are looking for investment or cooperation
5. To identify new commercial opportunities in China – where and when you should invest?
6. To keep briefed on activities of your competitor in China.

Who needs to subscribe?

- **HPP**, like PPS, PSF, PI PEEK, PEI, LCP, etc. **producers** aiming at Chinese market.
- **Laboratory and academic institute** targeting Chinese HPP research progress and new application.
- **End-users** looking to outsource HPP from China, medical instrument producer, electronic producer, automobile producer for example.
- **Raw material suppliers** targeting the market.
- **Analysts and consultants** trying to gain insight into the world's most fast-growing market
- **Investors** interesting in HPP market.

The subscription package includes:

- PDF newsletter delivered every 2 weeks
- 12 months or 26 issues per subscription period
- Access to online archive of all back issues with downloads
- Searchable online database of news stories
- Access to the breaking news website with regular updates
- Guaranteed breaking news
- Company-wide distribution license

Breaking News guarantee

We guarantee to beat the trade press with every story or your money back.

Fast and convenient

High Performance Polymers China is sent to you as a PDF by email, ensuring you receive each issue as soon as it's published.

Welcome to subscribe regular and exclusive newsletter from CCM

CCM International Limited is an independent consulting company focused on China's market and market covering Asia Pacific Rim. CCM's expertise lies in market researches, newsletters, conferences and databases, in such industries as packaging, printing, fine chemicals, agrochemicals, food ingredients, polymers, etc. CCM has established a good reputation as one of the key knowledge providers in these industry sectors.

CCM newsletter is focused on market and technology that are in rapid development. Our aim is to ensure subscribers have the inside track on stories affecting their business to ensure that they maintain their competitive advantages in an increasingly competitive marketplace and even get more business opportunities in China.

CCM newsletters are an essential business tool for anyone hoping to be informed of the latest developments in the fast moving technologies and markets.

Major newsletters from CCM

- Crop Protection China News
- Herbicides China News
- Corn Products China News
- Forest Chemicals China News
- Dairy Products China News
- Sugar and Sweeteners China News
- Fermentation China News
- Food Ingredients China News
- Fine Chemicals China News
- Coatings & Adhesives China News
- High Performance Polymers China News
- Engineering Plastics China News
- Pharmaceuticals & Intermediates China News
- Investment in China & Commercial Opportunities (Chinese)
- Global Biomedicines (Chinese)
- World Communication & Cultural Industries (Chinese)
- E-Commerce China (Chinese)

Major elements of each CCM newsletter:

- Legislative changes/ standards/regulations and policies
- Launch and trials/new technology/new products
- Market analysis and forecasts (Spotlight)
- Market and Consumer trends/company plan and strategies
- Supply and demand
- New installations
- JV/contracts/mergers/acquisitions
